

## LED DISPLAY FOR PIXEL ART QUICK START GUIDE

### iOS

**Step 1: Turn on iOS Bluetooth and get the PIXEL iOS app from <http://ledpixelart.com/apps>**

**Step 2: Launch app and accept Bluetooth pairing prompt**

If not prompted to pair, then tap Settings in the app and connect from there.

If the app crashes, then tap "Forget This Device" to PIXEL from iOS Bluetooth settings and re-launch app.

### Android

**Step 1: Get Android apps from <http://ledpixelart.com/apps>**

**Step 2: Tap the Bluetooth icon and pair to PIXEL using code: 0000**

When using the PIXEL Android app, short tap to stream an animation and long tap to write to PIXEL's onboard storage for stand alone operation.
